IEEE SUMMER OF CODE 2026

Fintra-AI Contributor Activity Report

Merged Pull Requests • Commits • Issue Resolutions • Contributor Impact

Repository: https://github.com/Ashwinchauhan89/Fintra-AI

Report field	Details
Project	Fintra-AI — AI-powered personal finance and financial intelligence platform
Maintainer / Project Admin	Ashwin Chauhan (@Ashwinchauhan89)
Reporting cutoff	September 30, 2026, 11:59 PM IST
Prepared	October 2026
Evidence basis	User-provided GitHub screenshots and contribution summaries; public repository links included for verification

1. Executive Summary

This report consolidates the contributor activity supplied for Fintra-AI for the IEEE Summer of Code 2026 cohort. It records individual contribution summaries, merged PR registers, issue resolutions, commit evidence, and qualitative notes.

- Ankush Singh Rawat (@ankush850): supplied report records 13 merged PRs, 22 contributor-authored commits, and 104 file changes (+30,558 / −728 lines).
- Mohan Sriram Kunamsetty (@SriRamkunamsetty): supplied report records 30 merged PRs, 44 commits in merged PRs, and 111 file changes (+6,605 / −1,151 lines).
- Additional repository activity visible in the supplied includes commits & PRs by Manya G Karle (@manyagkarle13) , Aditya Negi (@adinegi8273) and Parth Petkar (@parthpetkar24).

Important: contributor-level figures are transcribed from separate supplied reports and should not be added together as a unique repository-wide total without reconciling overlapping commits, PRs, and reporting methods.

2. Contributor Details

Full name / displayed name	GitHub username	Discord handle	Contribution area
Ankush Singh Rawat	ankush850	ankush4194	ML/AI architecture, FastAPI, OCR, backend security, reinforcement learning
Mohan Sriram Kunamsetty	SriRamkunamsetty	sriram_8526	Full-stack fixes, security hardening, CI, backend/ML

			integration, analytics and reporting features
Manya G Karle	manyagkarle13	manya__13	Analytics notebooks/data visualization; landing-page design and responsiveness
Aditya Negi	adinegi8273	adi_negi7_30888	UI styling: logo visibility, rounded corners, navbar transparency
Parth Petkar	parthpetkar24	petkarparth	ML: add expense classification model

3. Merged Pull Requests & Commits — Ankush Singh Rawat (@ankush850)

Source: supplied contribution report; dates and statistics below are transcribed from that report. Each PR link opens the repository PR.

PR / title	Merged	Commits	Files	Line changes	Evidence
#4 — Dual-granularity feature engineering & multi-model expense classification	21 Aug 2026	4	11	+1,313 / −409	https://github.com/Ashwinchauhan89/Fintra-AI/pull/4
#5 — Multi-model budget recommendation & 5-pillar financial health scoring	22 Aug 2026	2	8	+1,283 / −122	https://github.com/Ashwinchauhan89/Fintra-AI/pull/5
#6 — Real-time fraud detection & spending anomaly engine	22 Aug 2026	1	8	+1,075 / −20	https://github.com/Ashwinchauhan89/Fintra-AI/pull/6
#7 — Savings growth forecasting & goal timeline prediction	23 Aug 2026	1	8	+1,213 / −21	https://github.com/Ashwinchauhan89/Fintra-AI/pull/7
#8 — Automated	23 Aug 2026	1	8	+1,086 / −8	https://github.com/Ashwincha

subscription and recurring-charge detection					uhan89/Fintra-AI/pull/8
#30 — Investment recommendation & smart portfolio allocation	28 Aug 2026	1	7	+1,275 / −14	https://github.com/Ashwinchauhan89/Fintra-AI/pull/30
#31 — Loan underwriting and credit-risk engine	29 Aug 2026	1	7	+1,131 / −6	https://github.com/Ashwinchauhan89/Fintra-AI/pull/31
#32 — Credit-score estimator & 5-pillar simulator	30 Aug 2026	1	8	+1,259 / −7	https://github.com/Ashwinchauhan89/Fintra-AI/pull/32
#33 — Customer financial persona segmentation	31 Aug 2026	1	8	+1,177 / −9	https://github.com/Ashwinchauhan89/Fintra-AI/pull/33
#34 — Financial product recommendation & matchmaking	01 Sep 2026	2	9	+1,550 / −10	https://github.com/Ashwinchauhan89/Fintra-AI/pull/34
#36 — OCR receipt intelligence & FastAPI microservice	02 Sep 2026	3	24	+14,615 / −88	https://github.com/Ashwinchauhan89/Fintra-AI/pull/36
#45 — Clerk JWT auth, inter-service API key auth & rate limiting	05 Sep 2026	1	14	+978 / −306	https://github.com/Ashwinchauhan89/Fintra-AI/pull/45
#55 — Reinforcement-learning financial decision engine (closes #54)	24 Sep 2026	1	20	+2,599 / −2	https://github.com/Ashwinchauhan89/Fintra-AI/pull/55

Ankush — issue resolutions and milestones

- **Issue #54** — Implement Reinforcement Learning Financial Decision Engine; closed by PR #55.
- PR #36 — Phase 15 OCR receipt intelligence and Phase 19 production FastAPI REST microservice.
- PR #45 — Backend security with Clerk JWKS RSA-256 JWT verification, inter-service API-key authentication, and token-bucket rate limiting.
- Other milestones: expense classification, cash-flow forecasting, budget recommendations, financial-health scoring, fraud/anomaly detection, savings goals, subscriptions, portfolio allocation, credit scoring, customer segmentation, and product recommendations.

4. Merged Pull Requests & Commits — Mohan Sriram Kunamsetty (@SriRamkunamsetty)

Source: supplied contribution report, with PR merge dates and change statistics transcribed as provided.

PR / title	Merged	Commits	Files	Line changes	Evidence
#9 fix(ui): escape apostrophe in about section	23 Aug 2026	1	1	+1 / −1	https://github.com/Ashwinchauhan89/F0intra-AI/pull/9
#10 fix(deps): align React with calendar peer requirements	23 Aug 2026	1	2	+1,055 / −404	https://github.com/Ashwinchauhan89/Fintra-AI/pull/10
#11 fix(finance): preserve account and transaction balance integrity	23 Aug 2026	1	2	+149 / −91	https://github.com/Ashwinchauhan89/Fintra-AI/pull/11
#12 security: remove public destructive seed route	23 Aug 2026	1	1	+0 / −6	https://github.com/Ashwinchauhan89/Fintra-AI/pull/12
#13 security: validate receipt uploads and AI extraction	23 Aug 2026	1	2	+90 / −33	https://github.com/Ashwinchauhan89/Fintra-AI/pull/13
#14 fix(budget): align account scope and recurring schedules	23 Aug 2026	1	4	+67 / −66	https://github.com/Ashwinchauhan89/Fintra-AI/pull/14
#15 fix(ml): preserve daily	23 Aug 2026	1	1	+28 / −14	https://github.com/Ashwincha

features in expense forecasts					uhan89/Fintra-AI/pull/15
#16 test: add ML regression coverage	23 Aug 2026	1	2	+63 / −0	https://github.com/Ashwinchauhan89/Fintra-AI/pull/16
#17 docs: align setup instructions with repository layout	23 Aug 2026	1	3	+35 / −13	https://github.com/Ashwinchauhan89/Fintra-AI/pull/17
#18 security: patch vulnerable Next.js release	24 Aug 2026	1	2	+18 / −19	https://github.com/Ashwinchauhan89/Fintra-AI/pull/18
#20 chore(ui): remove unused bindings and lint warnings	02 Sep 2026	1	3	+5 / −6	https://github.com/Ashwinchauhan89/Fintra-AI/pull/20
#21 fix(dashboard): make account creation atomic and errors explicit	02 Sep 2026	1	1	+34 / −29	https://github.com/Ashwinchauhan89/Fintra-AI/pull/21
#22 fix(auth): make Clerk user provisioning resilient	02 Sep 2026	1	1	+26 / −21	https://github.com/Ashwinchauhan89/Fintra-AI/pull/22
#23 docs: align contribution guide with repository layout	02 Sep 2026	2	1	+26 / −41	https://github.com/Ashwinchauhan89/Fintra-AI/pull/23
#24 fix(security): upgrade Arcjet Next.js SDK for Edge compatibility	02 Sep 2026	2	2	+137 / −139	https://github.com/Ashwinchauhan89/Fintra-AI/pull/24
#25 ci: add reproducible frontend and ML quality gates	02 Sep 2026	1	1	+56 / −0	https://github.com/Ashwinchauhan89/Fintra-AI/pull/25
#37 feat: platform	02 Sep 2026	13	9	+284 / −236	https://github.com/Ashwincha

hardening, edge security, atomic accounts, and CI quality gates					uhan89/Fintra-AI/pull/37
#38 fix(actions): correct dynamic route revalidation and Decimal serialization	02 Sep 2026	1	2	+11 / −4	https://github.com/Ashwinchauhan89/Fintra-AI/pull/38
#39 feat(backend): implement FastAPI prediction service for ML architecture (#26)	02 Sep 2026	1	16	+655 / −1	https://github.com/Ashwinchauhan89/Fintra-AI/pull/39
#40 fix(backend): address review findings and harden inference runtime	03 Sep 2026	1	6	+35 / −16	https://github.com/Ashwinchauhan89/Fintra-AI/pull/40
#42 feat(frontend): add client bridge for real-time ML category and anomaly prediction	05 Sep 2026	1	3	+138 / −0	https://github.com/Ashwinchauhan89/Fintra-AI/pull/42
#43 feat(infrastructure): add multi-service Docker Compose orchestration	05 Sep 2026	1	4	+160 / −0	https://github.com/Ashwinchauhan89/Fintra-AI/pull/43
#41 feat(backend): expose Phase 15 OCR receipt	09 Sep 2026	1	4	+89 / −1	https://github.com/Ashwinchauhan89/Fintra-AI/pull/41

intelligence in FastAPI					
#44 feat(data-pipeline): implement automated transaction ETL & feature ingestion pipeline	09 Sep 2026	1	11	+337 / −1	https://github.com/Ashwinchauhan89/Fintra-AI/pull/44
#48 fix(infra): resolve production build-args and add deployment pipeline (#46, #47)	14 Sep 2026	1	4	+162 / −2	https://github.com/Ashwinchauhan89/Fintra-AI/pull/48
#49 feat(dashboard): visual health-score radar, portfolio simulator, and anomaly badges	14 Sep 2026	1	6	+603 / −2	https://github.com/Ashwinchauhan89/Fintra-AI/pull/49
#50 feat(copilot): add conversational AI copilot and purchase affordability solver	15 Sep 2026	1	4	+604 / −3	https://github.com/Ashwinchauhan89/Fintra-AI/pull/50
#51 feat(transactions): bulk bank statement CSV importer with auto-categorization	16 Sep 2026	1	4	+569 / −1	https://github.com/Ashwinchauhan89/Fintra-AI/pull/51
#52 feat(notifications): notification centre and recurring subscription tracker	19 Sep 2026	1	5	+635 / −0	https://github.com/Ashwinchauhan89/Fintra-AI/pull/52

#53 feat(reports): printable monthly statement and habit-gamification streaks	27 Sep 2026	1	4	+533 / −1	https://github.com/Ashwinchauhan89/Fintra-AI/pull/53

Mohan — issue resolutions and milestones

- Issue #26 — Create Pipelines and Backend Architecture; closed by PR #39.
- Issue #46 — make deployments; closed by PR #48.
- Issue #47 — fix production issues; closed by PR #48.
- Security/integrity work includes atomic account creation, transaction-balance integrity, removing a public destructive seed route, receipt-upload validation, Clerk provisioning resilience, and Arcjet/Next.js updates.
- Platform delivery includes FastAPI prediction service, OCR endpoint integration, ML frontend bridge, Docker Compose orchestration, ETL pipeline, financial-health dashboard, AI copilot, CSV statement importer, notifications, and printable financial reports.

5. Additional Commit & PR Evidence Supplied

Author	Commit SHA	Message	Date	Verification
parthpetkar24	0c688c2	Merge pull request #1 from parthpetkar24/ml/expense-classification	13 Aug 2026	https://github.com/Ashwinchauhan89/Fintra-AI/pull/1
adinegi8273	f5df4d6	Merge pull request #2 from adinegi8273/main	13 Aug 2026	https://github.com/Ashwinchauhan89/Fintra-AI/pull/2
adinegi8273	110eb60	style: fix logo visibility, add rounded corners, and adjust navbar transparency	13 Aug 2026	Commit shown in supplied GitHub screenshot.
manyagkarle13	f234b77	feat(analytics): implement notebooks and data analysis visualization module (#27)	31 Aug 2026 (user-supplied text)	https://github.com/Ashwinchauhan89/Fintra-AI/pull/28
manyagkarle13		feat(ui): improve landing page design, animations, and	28 Aug 2026 (user-supplied text)	https://github.com/Ashwinchauhan89/Fintra-AI/pull/35

		responsiveness (#19)		

6. Qualitative Contributor Notes

Contributor	Qualitative assessment (evidence-based; verify before submission)
Ankush Singh Rawat (@ankush850)	High technical complexity across ML model development, feature engineering, OCR, production APIs, backend security, and Double-DQN reinforcement learning. Supplied report records 13/13 PRs merged and extensive testing/documentation. Responsiveness should be confirmed from review timestamps and discussion threads; supplied report states average PR merge time under 18 hours.
Mohan Sriram Kunamsetty (@SriRamkunamsetty)	Broad full-stack impact across security, data integrity, CI, documentation, API integration, analytics, and user-facing features. Supplied report records 30 merged PRs and notes that requested changes on PRs #48 and #53 were resolved before merge. Six additional PRs were reported open in the source report; their status should be rechecked at the September 30 cutoff.
Manyagkarle13	Evidence supplied points to an analytics notebooks/data visualization module and a landing-page UI/responsiveness improvement. Assess code quality, test coverage, responsiveness, and PR status after reviewing the associated PRs/issues.
Adinegi8273	Evidence supplied points to a UI styling change improving logo visibility, rounded corners, and navbar transparency, plus a branch merged through PR #2. Assess visual consistency and review responsiveness against the PR discussion.
Parth Petkar (@parthpetkar24)	PR#1 introduces a comprehensive end-to-end machine learning pipeline for automated expense classification, leveraging merchant details, transaction descriptions, monetary values, and contextual metadata while assessing generalization performance on unseen merchants.

7. Repository Issue & Milestone Register

Issue	Title / milestone	Resolution / status from evidence	Link
#54	Implement Reinforcement Learning Financial Decision Engine	Closed by PR #55	https://github.com/Ashwinchauhan89/Fintra-AI/issues/54
#26	Create Pipelines and Backend Architecture	Closed by PR #39	https://github.com/Ashwinchauhan89/Fintra-AI/issues/26
#46	make deployments	Closed by PR #48	https://github.com/Ashwinchauhan89/Fintra-AI/issues/46
#47	fix production issues	Closed by PR #48	https://github.com/Ashwinchauhan89/Fintra-AI/issues/47
#19	Landing page design, animations, responsiveness	Issue/PR state not verified from supplied excerpt	https://github.com/Ashwinchauhan89/Fintra-AI/issues/19
#27	Analytics notebooks and data visualization module	Issue/PR state not verified from supplied excerpt	https://github.com/Ashwinchauhan89/Fintra-AI/issues/27

Program: IEEE Summer of Code 2026

Suggested report wording

"**Ankush Singh Rawat** is recognized for clean, maintainable code and for writing/preparing extension PR changes in a review-ready form for merging. His contribution is assessed by code quality, maintainability, and collaboration in the review-and-merge process—not by PR volume alone .His broader contributions to ML, OCR, production APIs, and backend security and most of contribution in this Project.

”
